Milwaukee, Wisconsin

Dear Sir:

As Deputy Director for Civilian Defense, as well as Chief of the Fire Department, I wish to thank you and through you all the radio amateur's who participated in Sunday's test.

The efficient and skillful manner in which the communication work was handled under your supervision indicates that Milwaukee will have good coordination in the event of catastrophe within our midst. The demonstration was very heartening from a supervisory point of view and as a result will permit us to devote more time to develop other needed civilian defense groups, knowing that one portion of the plan has been so adequately integrated.

Yours very truly,

Edw. E. Wischer

Deputy Director of Operations,
MCCD and
Chief, Fire Department
